

Lavant CE Primary

Governors' School Vision

Developing the School for the future:

- To continue our journey towards outstanding learning, through appropriate challenge and support
- To provide learning opportunities that are engaging, inspirational and meaningful, and to do so with a balanced and consistent approach
- To be strategic and creative with our resources and to spend for maximum impact
- To be aware of the threats to small village schools and engage proactively in this challenge whilst protecting, as far as we can, everything we know to be special about our thriving school

Maintaining the high standards of the school:

- To celebrate our strong community links and Christian ethos, and use these to strengthen our children's understanding of the wider world
- To protect the caring and supportive environment present across the whole school which allows staff and children to learn together and challenge each other
- To ensure a balanced approach between the results driven system and our aspirations for preparing children to succeed in life beyond our school
- To continue to expect high standards of behaviour whilst ensuring that this does not diminish the opportunities for risk taking and independent thinking
- To engage effectively with all stakeholders and share our optimism and vision for the school
- To promote the school as a centre of excellence supporting education locally and collaboratively
