

Mathematics:

Children will be learning to multiply and divide and will be able to link their understanding of division to fractions. We will also be completing practical maths activities in our outdoor environments.

Science:

As scientists, we will be performing simple tests to see how plant seeds grow under different conditions making predictions and forming a conclusion. We will be keeping a diary of a growing seed and create a timeline of events. We will continue to observe, describe and communicate findings using simple scientific language.

Art & DT:

In art, we will be designing, making and evaluating a model rocket. We will use techniques such as rolling, cutting, moulding and carving. We will also be looking at the work of Peter Thorpe using repeating and overlapping shapes and patterns.

Music:

As musicians, children will be identifying different beats and looking at rhythm. They will also be learning how to commend and critique others performances.

Space

How has space travel evolved?

Our Key Influencers for this term are:

Neil Armstrong and Tim Peake

Computing:

This term we will be creating and de-bugging simple programmes using beebots and scratch.

History:

In History, children will compare the lives of Neil Armstrong and Tim Peake. We will look at the chronological order of space travel including the moon landing. We will sample some of the delicacies of space life!

PSHE :

In PSHE, we will explore how to be responsible as part of our 7R's. As part of this, we will look at where money comes from and learn how to keep it safe. We will also look at how to return borrowed items.

Physical Education:

This term, we will master basic movements such as running, jumping, throwing and catching as well as developing balance, agility and co-ordination.

Religious Education:

Children will be looking at symbols and the different places of worship. We will focus on Islam and Christianity.

Writing:

As writers, we will continue to put reading at the forefront of our learning and base our literacy around key texts. We will explore a range of genres and provide opportunities for lots of discussion and role play. KS1 writing skills will be taught across the year. We will focus on stories based in space and look at using our imagination to write our own stories using story mapping.
