16th May 2017

Dear Parents and Carers,

Children are focusing on their careers in school this week. We have visitors coming into school to discuss the different options open to them. Children will be working in class to come up with money making ideas. Each class will be given a small amount of money to see if they can market an idea to make a profit. We will have stalls in school on Friday for children to sell their ideas. Children may bring a small amount of money to school to take part in the experiment.

Thank you for your continued support.

Ms West
Deputy Head Teacher
