

Reception Class

Week beginning 8.6.20

Dear Parents,

We are thinking about you and your families!

This is next week's lesson schedule <https://www.thenational.academy/online-classroom/reception#subjects>.

Rosie Revere is a great example of learning from your mistakes and of course they love to make things!

Doubling and halving is an important concept to master for Year 1. If you play board games you can play with 2 dice and make a big thing out of throwing a double, dominoes are also a great opportunity to explore doubles and there are opportunities for doubling and halving around the house

Week 7				
Lesson 1	Lesson 2	Lesson 3	Lesson 4	Lesson 5
Rosie Revere Engineer - Andrea Beaty				
Language focus - inventions	Hear the story (audio retrieval)	Commit instructions to memory (map)	Write instructions (to build a rocket)	To follow instructions (to build a rocket)
Doubling and halving				
Understand concept of double	Understand concept of double	Understand concept of half	Understand concept of half	Apply understanding of doubling and halving

We sent home the set 2 phonics cards and have asked you to work with your child to recognise and use them. If you search for 'Phonics with Rosie Set 2' you will reach the Ruth Miskin website where Rosie will teach a 10 minute phonics lesson each day. She spends 2 days for each sound and there are pauses for children to read or write the words. This is the format for our daily phonics lessons at school and will be a great reinforcement of their learning.

Have a good week

From Mrs Duffy and Mr Cowan
