

## Doughnut birthday cake by Emily

I chose a doughnut as my inspiration for my sister's birthday because I know she likes doughnuts also because I thought it would be fun to make.

I mixed: softened butter, caster sugar, 3 large eggs, flour, baking powder, a pinch of salt to make the dough and made then I put it in the baking tin and put the pot in middle of it to make a hole like on a doughnut.

Then when the cake came out I iced it I also did cupcakes for my sister's birthday party which was a roller skating party.

I asked everyone how they rated the cake and I was awarded:

Rate: ★★★★★
