

BIKEABILITY BALANCE - Helmets and Bikes

Due to the present situation with regard to Covid all of the instructors balance and pedal bikes will be thoroughly cleaned before being used by another child at the end of each session. **If your child can cycle their own pedal bike unaided they can bring this into school and use it for the course. (NO BIKES WITH STABILISERS) Write child's name in the section below.**

Also under present delivery guidelines children are unable to share helmets. The instructor has a limited number that some children, **who have no helmet**, will be able to use.

So if your child **does have** their own helmet and can bring this into school to use this will help with the delivery of the course. **Could you write their name in the correct section** and return this form to school **ASAP** if your child could use their own helmet, and , or bike.
