

PE and Sport Grant 2016/17

The Government has given every primary school in England funding to be used to develop the teaching and learning in physical education and sport within schools.

During the academic year £7, 950 was spent from the Sports Premium Funding. At the end of the financial year 16/17 £4,341 remained (This was mainly due to the fact that the planned spending for a PE and Sports Apprentice did not occur do to no applicants coming through from the Sporting Futures Training Scheme.). The school has been allocated £8,851 for the financial year 17/18.

During this academic year a number of measures have been implemented and PE and sport will continue to have a focus in the school throughout the year. This funding has been provided to help improve learning in PE for **all** children; enhance the current high quality lessons that the school already delivers as well as introducing additional opportunities in the form of new sports, clubs and competitions.

We have already spent this grant on:

- Introducing children to new and different sports from the national curriculum to promote inclusion for all, including those with disabilities and those with special needs
- Hiring specialist teachers and qualified sports coaches to work alongside our teachers in PE lessons
- Providing opportunities to take part in inter and intra sports competitions including Schools Games events
- Providing the opportunity for children to participate in a wide range of sports and physical activities with a broader network of peers from the West Dorset area and further afield
- Promoting fitness and leadership skills to some of our less confident children
- Giving extra support to our most talented children in sport
- Improving some of our sports equipment enabling more children to participate in a variety of sports and clubs
- Improving our links with external community sports providers
- Contributing towards employing a pyramid school sports co-ordinator
- Membership to West Dorset Sports Association
- Providing the opportunity for children to take part in outdoor and adventurous sports

This will impact on our children gaining new skills, confidence and experiences and our teachers learning new techniques and knowledge to aid them in teaching sport and PE. We strongly believe that our commitment to sport has a profound benefit on the academic achievements of our pupils.

We have achieved the Gold Sainsbury's School Games Award for the last three consecutive years and will be applying for this again this year.
