Governors' News

Science Week was Fascinating!

This term, we have been very lucky to have visitors from all walks of life and industry, including nine school parents, to come and talk to the classes about the science behind their jobs. They were all wonderfully informative and we are very grateful to them for giving up their time and valuable expertise to share with us. Our older children also learned experiments to demonstrate to the younger years. They loved the responsibility and the outcomes. We were thrilled with how the children responded to each other and adapted their 'lesson plans' to help the little ones understand. We would like to thank Mrs Taylor, Year 3&4 Class Teacher, for organising such a successful school event.

The Great Salway Ash School Bake Off

Years 5&6 kicked off 'The Great Salway Ash School 'Bake Off' in January. We had 29 entries for the first round which was an amazing turn out. Guest judges, Tor Hopkins, Hayley Skelton and Sarah Huxter, had a very difficult job helping the school council to decide which cakes were best on taste and best on looks. In March, it was the turn of Years 3& 4 to shine. The children really enjoyed entering, the judges certainly enjoyed tasting and everyone else in school was delighted to buy the cakes and support our good causes. The younger children will have their turn after Easter and we are expecting equally delicious results. The cakes are being sold to raise money for the new playground equipment and for Cancer Research with £201.05 raised so far.

Robin Class Outdoor Shelter for Learning

Miss Christopher writes, "The Robin class were very lucky to have their new outdoor classroom built at the end of last term. It is extremely important for the children using the Early Years curriculum to have an outdoor space for learning. Children can do their best thinking and problem solving outdoors. Currently, we have table and chairs, sand and water in the area and we will be adding more throughout the rest of the year such as a digging area, guttering for water play and kitchen equipment. We are looking to fence off the area so it is secure for independent outdoor learning which will then be decorated by the children in their own, unique style!"

New Fencing for School Playground

We would like to extend a very big thank you to Joe Murless, Martin Huxter and Simon Holland, all school parents, who gave up their time to erect a new, sturdy fence around the school playground, saving the school a considerable amount of money. The new fence should ensure that the intruding cows from the neighbouring field are no longer a problem and the children will have a safer environment in which to play.
