

What do ants like to eat the most?

cheese    crackers    jam    sugar!

Phoebe

What do ants like to eat the most?

PHOEBE! Y3, JONES!

Helped by monkey and Rex!

Lets find out what ANTS  
DO LIKE TO EAT THE MOST!

So first lets see what food we have we have **cheese**, **cracker**, **Jam**, **sugar**! We know this experiment is fair because we've turned the cardboard round. **O**n the first round all of the ants ran to the cheese but when we turned it round the jam was the most popular. **M**ost of the ants found a way to squeeze through the gap, it was amazing, just like when we were cutting the grass we could see them all carrying their eggs.

**We** have found out that the jam was the most popular on the second half. **S**urprisingly none of them found the sugar. **We** saw all

this on time - laps on monkey's phone. **O**ver night I think the stray black cat ate the cheese and the cracker because in the morning they had gone. That shows how ants really are amazing.

HOW MANY ANTS  
ARE ON  
THE JAM!?

WE ALSO WANTED  
TO KNOW HOW  
QUICKLY CAN

ANTS FIND  
JAM!?

ANTS  
ARE  
AMAZING!  
YEAH!

FIRST we found an "ant trail" on the wall. then we smothered some jam on the wall. I waited and waited until lots of ants had found the jam. Some of them were wandering along with something twice the size of them!

HOW MANY ANTS

ARE ON THE

JAM!

TIME	Number of ants
1:54	21
1:56	28
1:58	34
2:00	60
2:02	67
2:04	67
2:06	74
2:12	79
2:17	66
2:22	92
2:27	104
