

# Slaley First School

## Remote Learning Policy

DFE Guidance states:

*Where a class, group or small number of pupils need to self-isolate, or there is a local lockdown requiring pupils to remain at home, we expect schools to have the capacity to offer immediate remote education. Schools are expected to consider how to continue to improve the quality of their existing offer and have a strong contingency plan in place for remote education provision by the end of September. This planning will be particularly important to support a scenario in which the logistical challenges of remote provision are greatest, for example where large numbers of pupils are required to remain at home.*

During this period of uncertainty SFS will continue to educate and support the children using remote learning where this becomes necessary. Learning will be conducted using a combination of 'Google Classroom' and School360 (where parents have access) and physical study packs. This will allow staff to keep in contact in a professional and confidential manner with their pupils. Teachers will be able to schedule learning in a manner that does not overwhelm their children. Teaching and learning can be tailored, changed and updated, allowing for replication of classroom activity to the best of our ability. In all communications we will prioritise the wellbeing of all our children.

### Flexibility of Learning

We realise that the circumstances which cause our children to access remote learning will be affecting our families in a number of ways. In our planning and expectations, we are aware of the need for flexibility from all sides: -

- Parents may be trying to work from home so access to technology may be limited;
- Parents may have two or more children trying to access technology and need to prioritise the needs of young people studying towards GCSE/A Level's;
- Teachers may be trying to manage their home situation and the learning of their own children;
- Systems may not always function as they should.

An understanding of, and willingness to adapt to, these difficulties on all sides is essential for success.

Home learning encompasses a whole variety of activities instigated by teachers for parents to support children's learning. It can add much to a child's development. Children benefit greatly from the mutual support of teachers working with parents to encourage them to learn at home. At SFS we see home learning as an important way of establishing a meaningful dialogue between parents, children and teachers. One of the aims of our school is to encourage independent learners. Home learning is one way in which children can develop skills to learn for themselves and therefore develop their understanding further. We have used guidelines from the DfE to develop this policy.

Research into the impact of home learning demonstrates that home learning can have the following non-academic benefits for children:

- Learning the importance of responsibility for learning
- Managing their time effectively
- Developing study habits
- Developing perseverance – staying with a task until it is complete

#### Aims of this policy

- To ensure a consistent approach to home learning throughout the school.
- To ensure that teachers, parents and children have a clear understanding regarding expectations for home learning.
- To ensure that teachers, parents and children are fully aware of the role they play with regards to home learning.

SFS will follow the recommendations of home learning research. It tells us that students are likely to learn best from home when teachers:

- Give information about how they can be contacted.
- Continue to teach in line with current, extensive planning that is already in place throughout the school.
- Give a reasonable amount of feedback to pupils and families on a pupil's learning.
- Avoid overwhelming students by giving them too many learning activities at once, recognising that learning remotely will be more difficult.
- Keeping minds active and happy, ready to return to school when the time comes is one of the most important factors.
- Activities should be set which children can complete on their own, encouraging independent learning.
- Set tasks that do not require the internet or tablet to access them are preferable, as some families will not have internet access to more than one device.
- Set work and tasks which will suit the age range and capabilities of the children and expected outcomes should be flexible.
- Allocate work that can be set in bite-sized chunks. Projects will be broken down.
- Provide a list of flexible tasks that cover different areas of the curriculum allowing children to choose the tasks that interest them.
- Give a variety of tasks, those which can be completed at the table, moving around and creative tasks.

Children should:

- Be assured that wellbeing is at the forefront of our thoughts and the need for children to take regular breaks, get fresh air, exercise and maintain a reasonable balance between online engagement and offline activities.
- Only send messages and questions in relation to the tasks set by the teacher or in response to questions the teacher may ask them directly.

- Only access the material shared by their teacher and ask for parental permission to use technology for anything else beyond that.
- Read daily, either with an adult or independently.

Parents should:

- Support their child's learning to the best of their ability. Research supports the importance of vocabulary development from an early age. We would encourage parents to daily converse with their children about what they have learnt. Here are some examples of how you can encourage a conversation about learning:

Tell me about the most interesting thing you have learnt today.

How could you have improved your learning today?

What did you enjoy most about today's learning?

What do you predict you are going to be learning about next?

- Know that they can continue to contact their class teacher as normal through 'Google Classroom' if they need any support;
- Check their child's completed work each day and encourage the progress that is being made;
- Be mindful of mental well-being of both themselves and their child and encourage their child to take regular breaks, play games, get fresh air and relax.
- Refrain from screenshotting or copying any information, messages or posts to share on social media or any other platform outside of Google Classroom.
- Although some online lessons may be suggested they are not desirable for primary children as the teacher-pupil interaction is not easily replicated. Parents should refer to our safeguarding policy to ensure safe use of the internet along with reviewing the guidance posted in 'Staying Safe Online' in the Parent Zone section of the school's website. The table below details the provision that will be offered at different stages.

	<b>Stage 1</b> <b>Strategy for Curriculum delivery in the event of individual pupils being isolated for a short period- 2 day onwards(usually while awaiting results for themselves or a family member)</b>	<b>Stage 2</b> <b>Strategy for Curriculum delivery in the event of individual pupils being required to self-isolate for 10 days or more.</b>	<b>Stage 3</b> <b>Strategy for curriculum delivery in the event of a whole bubble/whole school being required to close.</b>	<b>Stage 4</b> <b>Strategy for remote learning in the event of a national lockdown where Critical Worker and Vulnerable Children are able to attend school.</b>
<b>EYFS</b>	<p>EYFS will share the Learning Objective and send some activities related to these. Due to the age of the children and the style of activities which encourage meaningful learning these may be practical, investigative activities.</p>	<p>Staff will send links to games and activities on schools 360. They will also share the Learning Objective and send some activities related to these. Due to the age of the children and the style of activities which encourage meaningful learning these may be practical, investigative activities. Mrs Ainslie will be available to respond to emails between the hours of 12.00-1.00pm daily.</p>	<p>Staff will be online to teach virtually. There will be staggered start times due to children from one family being in more than one class. Tasks will take into account the resources that parents have access to at home and online learning. Parents can provide feedback from the tasks including photographs and load any work onto 360 where staff can comment.</p> <p>Staff will introduce the morning activities between 10.00am-10.20am- Welcome Time and morning activities for all of Early Years.</p> <p>11.50am - Nursery Story time</p> <p>1.30-2.00pm - Introduction of phonics and afternoon activities for Reception Children.</p>	<p>As staff will be teaching throughout the school day it will not be possible for children to receive face to face tuition.</p> <p>In addition to the Rainbow Challenge posted on line, weekly learning packs will be prepared and made available for collection from school on a Monday. This will reduce the strain on parents to have access to the internet or print off resources.</p> <p>These will be available from the main entrance from 9:30am.</p> <p>Work needs to be handed back into school on a Friday (between 9:30 am and 2:30pm). It will then be marked by the teacher and feedback given.</p> <p>A member of staff will make weekly contact with your child to check how they are getting on.</p>

KS1	Existing homework on Google Classroom.	<p>Staff will set weekly tasks on the Google Classroom. They will provide a suggested time table for parents to follow. Throughout the week these tasks will support classroom learning. Tasks will take into account the resources that parents have access to at home and online learning. Parents can provide feedback from the tasks including photographs and load any work onto Google Classroom, where staff can comment.</p> <p>Teachers will be in the classroom between the hours of 8.30am- 3.30pm and therefore be unable to respond to messages, however they will be available between 4.00pm-5.00pm to check emails and respond to any queries.</p> <p>A member of staff will contact pupils via 'Google Meet' for 10 minutes per week to discuss their home learning.</p>	<p>Staff will be online to teach virtually. <p>Mrs Seymour will be responsible for provision and distribution of free school meals.</p> <p>Mrs Wilson will monitor the admin email account and fulfil administrative duties daily between the hours of 9.00am -12.00.</p>				

In the event of a member of staff testing positive and being unwell with the effects of COVID19 parents will be directed to a number of different materials, some of which will be generic. We are aware that our offer will be compromised during this time, however the materials will have been selected and reviewed by the member of staff and will be age appropriate. This is to ensure that other members of staff are able to continue delivering the curriculum to their classes without disruption.

N.B. In compliance with Copyright Law and regulations governing the use of photocopiable materials parents must note that resources are for viewing online only on our secure Google Classroom. They must not be printed, photocopied or distributed. The school will not take responsibility for any breach of Copyright Law.
