Midlands

Creating positive  
relationships with  
physical activity for life

Dear Andrew

Leigh and I had a wonderful day working with your staff and pupils in November. As former Headteachers, we were both so impressed with the exemplary behaviour throughout the day and with the confidence they demonstrated when they explained their answers, how they felt about different aspects of PE and how they supported each other in the lessons.

Their attitude to learning was excellent and a key element of real PE is peer coaching and your children encouraged each other, modelled skills, reviewed their work and celebrated successes. Your school values have been explicitly taught and well modelled by staff and this has helped the children gain an ethical vocabulary which has enabled them to express themselves in a confident manner.

Thank you so much for a super day, we both really enjoyed working with you all.

Best wishes

Neil
