

Thumbs up

for the flu
vaccine

#ThumbsUpForCoby

Earlier this year, our beautiful son, Coby, died from flu. He was just nine-years old and lived with us here in Devon.

Like every child, Coby was a special little boy. He loved maths, computers and playing with his friends. We miss him every day and our life is not the same without him.

We don't want anyone to go through what we've been through. That's why we're urging parents to get their child vaccinated against flu.

With thanks and best wishes,

Louise and Jamie, Coby's mum and dad

#ThumbsUpForCoby

The children's flu vaccine is offered as a yearly nasal spray to help protect children against flu.

Children from **reception to year five** will receive a consent form from their school, via letter or online. **Consent forms must be completed for your child to be vaccinated.** Many parents have already returned their forms.

If your child is aged **2 to 4**, or has a **long-term condition**, like **asthma** or **diabetes**, **contact your GP** and book them in for a vaccination. Clinics are available now and are filling up.

Protect your child and those around them now. Get the flu vaccine.
