Dear Parent/Guardian/Carer,

The oral health programme is a new and exciting oral health programme set up to give children extra protection against tooth decay.

Our team of trained dental professionals will visit the school to paint fluoride varnish onto your child's teeth twice in the school year and is **free of charge!**

We hope that you will want your child to join us for a dental adventure and benefit from this service, as fluoride application is easy, safe and fun.

Please find enclosed our leaflet, along with a medical history and consent form. If you would like your child to take part in this programme, simply complete the form and hand it back into school by **Wednesday 14th March** or alternatively bring it along with you when the Brighter Smiles Team visit on:

Tuesday 13th March – 3pm (In hall) – Meet and greet the team and ask questions.

We hope you can drop in to meet us on this date to find out more about the service we plan to deliver. Without your consent, we will not be able to apply the fluoride to your child's teeth. The Brighter Smiles team will return to the school on the following date(s):-

Foundation Fluoride application – 16th March
Year one Fluoride application - 26th March.

to apply fluoride varnish to the teeth of all those children enrolled onto the programme.

Yours sincerely,

The Brighter Smiles Team
