

16th November 2007

Dear Parents

OFSTED INSPECTION 1ST NOVEMBER 2007

Please find attached a copy of the Inspection report for our school. We have been given an exceptional report and rated as outstanding.

As I have said in previous letters our children only get one chance at their primary education. In partnership with you we feel that we have created a school which, given the available resources, does its best to make sure that the one chance our children have is an 'outstanding' one.

Our school is a living breathing entity. Things change, evolve, go wrong etc, but overall we feel that the children in this school develop in all respects extremely well and leave us with a really good platform on which to build their future lives.

On his departure the lead inspector commented that this is the sort of school he would have liked his own children to have gone to and that he would have enjoyed working with the school's staff in his previous headships.

Thank you once again to all parents and grandparents for your continued support which is always positive, constructive and valued.

Thank you and well done to the most important people your children, who have made the school such an outstanding success.

From all at Boringdon
