Harvest Assembly and Food Collection

As the Exeter Foodbank is unable to take donations at the minute, we have looked for another way to help around Harvest time. We have been in touch with the Devon and Cornwall Food Association who would be very grateful for any help that we can offer. Charles Nyeko, who works with the association, came in to assembly on Wednesday and gave us some information about what the organisation does. If you feel that you are in a position to help by donating some food, please bring this into school on Monday 19th October and place it straight onto one of the tables that will be out in the Junior School hall.

Preferred items for donation include any in date tins or packaged food. The association is also happy to accept fruit and vegetables.

On Monday, we will be holding our first Federation Assembly of the year based on the theme of Harvest. The Year 2 children will be joining Year 3, 5 and 6 children at the Junior School and Year 4 children will be visiting the Infant School.

Transition Survey & Tour of the School

Thank you to all the Year 3 parents who have completed and returned our Transition Survey. Our aim is to work closely with the Infant School to make transition as smooth as possible and your comments will help to improve this even further. One point that came out of the survey is that some Year 3 parents have not had a tour of the school. To solve this, Mr Wilkinson and Mr Broad will be available to show people around next Monday 19th and Tuesday 20th. Please meet at 3:40pm in the playground outside the Year 3 classrooms if you would like to take this opportunity. If you are not able to make this time, please contact us.

A Short Apology

Apologies for any confusion caused in last week's newsletter. Girls are welcome to wear smart, black or grey uniform-style shorts just as the boys are.

Year 3 Sandwich Making

As part of their English, Science and Design Technology work, Year 3 made and ate healthy, nutritionally balanced sandwiches this week. The children chose ingredients to make a sandwich that is balanced and contained some ingredients that can be grown at home such as tomatoes, lettuce and carrots.

Kelso's Choices and E Safety

Top tip for parents:

Check that websites are suitable before your child visits them. Talk to friends about what websites their children use.

Kelso's top tip for children:

Don't say anything unkind or mean. You should treat friends as you would on the playground. Would you be happy for your parents, grandparents, brothers or sisters to see what you have written online?

Golden Mile

This week, our Bronze Young Ambassadors took part in training to run the 'Golden Mile'. Over the year, they will be working with children across the school encouraging them to run a mile as regularly as possible.
