Balancing Equations

I can solve balancing equations by working out what the missing number is.

1. $8 + \boxed{} = 17 + 3$

2. $42 + \boxed{} = 99 - 13$

3. $87 - \boxed{} = 22 + 45$

4. $72 - \boxed{} = 100 - 56$

5. $63 - 47 = 72 - \boxed{}$

6. $49 + 72 = 100 + \boxed{}$

7. $62 - 42 = 78 - \boxed{}$

8. $100 + 22 = 86 + \boxed{}$

9. $56 + \boxed{} = 82 + 27$

10. $42 + 15 = 88 - \boxed{}$

11. $23 + 87 = 200 - \boxed{}$

12. $75 - 28 = 46 + \boxed{}$

Balancing Equations **Answers**

I can solve balancing equations by working out what the missing number is.

1. 8 + **12** = 17 + 3

2. 42 + **44** = 99 - 13

3. 87 - **20** = 22 + 45

4. 72 - **28** = 100 - 56

5. 63 - 47 = 72 - **56**

6. 49 + 72 = 100 + **21**

7. 62 - 42 = 78 - **58**

8. 100 + 22 = 86 + **36**

9. 56 + **53** = 82 + 27

10. 42 + 15 = 88 - **31**

11. 23 + 87 = 200 - **90**

12. 75 - 28 = 46 + **1**
