

Equalities and Diversity Statement

The Cedar Tree Federation is committed to providing equality of opportunity for all pupils and staff, and to ensuring the working environment is free from discrimination, prejudice and harassment. We encourage respect and consideration for others, and recognise and value the school as a safe place for learning as defined within our Mission statement and core values. The staff at Cedar Tree recognise that inequalities exist in all levels of society and believe that, as educators, we have a crucial role to play in eliminating racism, sexism and all forms of discrimination. We promote equality by addressing bullying, racial abuse and sexism immediately and by educating the young people in our care without prejudice.
