

**Home Learning.** Well done Year One children for an amazing start to the new school year! We thought we'd give you something very exciting to do at home together. We will really treasure your work so send it in as soon as you complete it and we will display it on a special wall in the classroom. (Please let us know if you need anything to help your child complete a task)

You can choose from the following activities. You have up until Christmas. We hope you have fun!

**Develop your creativity:**

- ◆ Create a magical underwater scene (you could use natural materials gathered from outside).
- ◆ Make a story map about your own underwater adventure.
- ◆ Make a sea creature using recycled materials!

**Out and About:**

- ◆ Visit a Sea Life centre or beach and make a photo and caption scrap book of your trip.
- ◆ Go to the beach and go rock pooling. Make a photo montage of your day at the beach.
- ◆ Take part in a beach clean!
- ◆ Help at home with the recycling!

**Commotion in the Ocean**  
**Classes 3 and 4**  
**Autumn Terms 1 and 2**  
**2019**

**Don't forget to keep practising your reading books and word lists**

**Explore your mathematical skills:**

- ◆ Can you collect at least 5 pictures or photos to show symmetry in nature e.g. flowers, octopus?
- ◆ Go to the beach and collect shells. Make a bar chart of the different shells that you found.
- ◆ Can you sort and count the shells and record how many you have of each type?
- ◆ Can you make up some number stories using the underwater theme? For example:  $5 \text{ fish} + 5 \text{ fish} = 10 \text{ fish}$ .

**Research:**

- ◆ Research 4 facts about sea creatures and present them in a poster.
- ◆ Can you talk to 3 people about how they recycle in their house? You could show us using a block graph or photographs.
- ◆ Visit the library and find 4 fiction or non-fiction books which are about our topic. You could make a list of them and write about your favourite.
