Summer Term – Week 9
Remember to send updates
and photos through
Tapestry or Class Dojo ☺

Weekly Literacy Activities

- Can you plan the perfect birthday party for a Princess or Wizard? What will you need? Can you write a list? How much might the items cost?
- Help the Princess fill in the missing pages from her diary. What happened on the Tuesday? Investigate by listening to the story again and recording what happened to her on that day.
- Design and label a nature wand. On your daily walk make your design using a nice strong stick and by collecting beautiful nature treasures to tie around it. Send us a photo of what you have made!
- Make your own tiara or crown using a piece of card and some sticks!
- If you had a Fairy God Mother, what would you wish for?
- Can you create a sequel to the story? What happens to the Princess and the Wizard next?
- The story features lots of beautiful glittery illustrations. Can you make your own glittery picture like the illustrator Lydia Monks?

Weekly Maths Activities

- Each day the princess turns herself into different animals and objects to try and escape the wizard. Can you match the day to the princesses in disguise on the next page?
- The princess loves her spotty princess outfit and the wizard has a cloak on. Can you design your own shape themed clothes? Which shapes will you choose? Why not design an outfit to go to the party in? What kind of party would it be? Or just design some super socks! I wonder what socks a princess or a wizard would wear...
- Days of the week! The wizard has a challenge for the princess every day. Can you give yourself 7 challenges? Tick them off as you complete them day by day. This could be a rainbow challenge. Each day could be a colour just like the princess! Could some of the challenges help your grown ups? Could it be a way to be kind every day?
- The wizard loves counting when he waits for the princess to hide. Make your own special wizard counting book! What different compositions of numbers can you make for each page? Fold some paper to make a book shape and on top of each page write your numbers in order (or you could take some photos of numbers you see in the environment and stick them in!). Then draw or stick photographs of objects for the number on that page. Will your book have a special cover?
- Play some wizard counting games! Hide and Wizard or What's the spell Mr Wizard!
- Make a special potion spell to stop the wizards ever coming back and turning us to stone! Your potion must have 20 items in it or it won't work. What could you collect to put in your potion? You can have more than one of the same thing. List your ingredients so you don't forget! There are some ideas on the next page...
- The wizard has been doubling everything so there's far too much food for the party! Have a look on the next page at the party food. Can you halve what is on the plates so we are not too greedy?

Talking Together

What does the princess turn into on each day?

A spell to stop the wizard coming back!

6 snails
4 smelly socks
2 bat wings
2 frogs eyes
1 shoelace
1 banana
4 bats
1 pinch of cat dandruff!

Stir 20 times and say
Abracadabra!

A spell to stop the wizard coming back!

4 toenails
1 tub of slime
3 toads
1 snail shell
3 oranges!
5 pinches of sugar
1 small snake
2 blunt pencils

Stir 20 times and say
Abracadabra!

Can you halve the party food? You may
want to use real objects and plates
instead!
