

# A Wolf to a Dog

Once upon a time a wolf was hunting for food and he bumped his head on a tree and past out.

Two hours later a man found him out in the middle of the woods and took him to the vets.

At the vets the wolf woke up at four pm, started howling in the medical room.

The vets heard the howling and came into the room and fed the wolf (pork chops) because they thought that there was the problem!

that seemed to work, but what the wolf didn't know that the food had some kind of chemical in it and 5 seconds later BAN!

The chemical kicked in immediately, changed him to a dog and the person adopted the dog.

# THE WHALE THAT TURNED INTO A NARWHAL

By Ysella Young, Ellie Kendall, Dakota Mitchell, Poppy Teague, Libby Beynon!!

One magical day there was a whale called Coral. She was so sore because she had just had a fight with a shark; Coral always got bullied and ended up getting into a fight. She sadly had no way to protect herself but then one day a narwhal came and protected her-using her sharp horn- from the evil sharks. "I wish I had a horn like yours then I might actually have a way of surviving them!!" "I can help with that." The narwhal [who was called Piper] said. The narwhal led her to a shipwreck where she gave her a pearl [which Coral ate] that was hidden in a chocolate coin chest. "Where did you get that?" Coral asked Piper. "A magical Jellyfish gave it to me as a present." The pearl gave Coral a horn, then Piper taught her the way of the narwhal and Coral was never hurt again! "This is a much better way of living!" Coral exclaimed. Next time she had a fight she always won and the sharks never came close to her again. Years and years later she had triplets, two girls, named Oceana and Lacey and one boy named Jack and after they got into a fight with some other sharks, Coral took them to Piper and they were taught the way of the narwhal too.
