

The Reading Agency and Libraries Present

SPACE CHASE

Summer Reading Challenge 2019

Zoom into your local library for this year's summer reading challenge.

Launching 29th June

Children aged 4 years and older can take part in an out-of-this-world adventure as this year's summer reading challenge celebrates the 50th anniversary of the moon landing. Join a mission to read six books from the library over the summer and be rewarded with lots of stickers and free goodies along the way. Certificates will be awarded to all children who complete the challenge and they will be invited to a special ceremony to be presented with their Space Chase medal.

There will also be a mini challenge for children ages three and under, with stickers to collect, so little ones can join in the fun too.

Joining the challenge is free and it runs until 14 September so there's plenty of time to read your six books. Children need to be a member of the library to take part. It's easy and free to join.

Alongside our regular programme of summer events, there will be lots of space-themed fun activities to enjoy in your local library, such as space junk modelling, space adventure treasure hunt and more! The Curve is also joining in the fun with some special shows and events, including Pop Up Planetarium on 9th August; A Strange New Space, with puppetry and music on 20th August; and a special Autism Friendly Film Screening of WALL-E on 31st August. For further details of all the events, visit
