

Palm Leaf Fold and Cut Craft

This is a fun Palm Sunday craft that works a lot like cutting out paper snowflakes.

Materials:

- Paper green or white
- scissors
- tape
- OPTIONAL: Green pipe cleaner

Instructions:

- Cut out a leaf shape on green paper or use white paper and colour the leaf shape green. (template provided if needed).
- Fold the leaf shape in half.
- Cut triangle shapes along the outside of the folded leaf (do not cut along the folded edge).
- Unfold the leaf to see your finished palm leaf.
- Tape a green pipe cleaner as a stem or roll a second piece of green paper into a tight tube and tape it so it will stay rolled up. Then tape that to the centre as a stem.
