

Thursday 19th December 2019

Dear Parents and Carers,

Year 6 Topic – Blood Heart

In the Spring term, we will be starting our new Cornerstones topic - Blood Heart. This will be a science based topic and will focus on the circulatory system.

On Monday 6th January, Year 6 will observe and take part in a lamb heart dissection as the engage section to this topic. They will discover what the heart looks like and investigate how it works which will be crucial to their future learning.

We anticipate all children taking part but if at anytime they feel uncomfortable they will be able to leave the room. If you would not like your child to take part in the lamb heart dissection, please complete the form below.

If you have any questions or concerns then please don't hesitate to contact us.

Yours faithfully

Mr Hughes and Miss Blizzard

Year 6 – Lamb heart dissection

Name of child:

Class:

I do not give consent for my child to take part in the lamb heart activity.
