

Environmental Youth Awards 2014

We Won!

We had a very exciting day at The Bath and West Show on Wednesday May 28th. It was especially exciting – because we won!! The Duchess of Cornwall announced us as the overall inner – opening a sealed envelope before our eyes!! We couldn't quite believe it – and still can't! The other 3 schools were there representing their counties as we all waited together for the final verdict and it was with sheer delight and disbelief that the children went up to the Duchess to be given our awards. Our trophies are fantastic – a beautiful bronze cast of a bird of prey, a bespoke bronze plaque featuring a rural scene and £500 to spend on further environmental projects.

Well done to everyone – the award is for everyone – and we won it because we all do it – all day every day – it's not an individual or a group or one project - as the judges said:

“The school has developed a Whole School Environmental Awareness ethos that ensures sustainability, recycling and care for the environment is central to daily school life for every child.”
