

FOREST SCHOOL NEWS

Autumn 2018

We have been very busy at Forest School since our return from the summer holidays & have been very lucky with the weather so far! Please, however remember that your child must have their own labelled set of waterproofs & boots to keep at school as we go out in all weathers including rain!

Early years have experienced a range of activities, such as bug hunting, den building, acorn painting, making hot chocolate, hapa zome and exploring off site on an autumn walk in Leygrove woods where we found lots of fungi.

CLASS 2 have made their own obstacle course using natural resources, enjoyed preparing their conkers (using a palm drill to make the hole) for conker play, siting the hammock and having great fun in the mud kitchen!

CLASS 3 have explored different ways to build dens, enjoyed conker play, made bows & arrows, siting the hammock and participated in lots of team games.

CLASS 4 have been learning to light fires safely, whittling using a peeler, creating charcoal pictures, toasting marshmallows and participated in lots of team games.

WISH LIST

any donations greatly received.

Small plastic containers to observe bugs in, old kitchen pots, pans & utensils for the mud kitchen, pinecones, instant hot chocolate, any lengths of rope and tarpaulin.
