

2nd September 2020

Welcome back and thank you to everyone for their patience this morning. Based on observations and feedback from families today, we have decided to make some changes to our drop off and collection arrangements from **Thursday 3rd September**. We hope that the changes will make the system simple to follow, enhance social distancing and work better for parents with siblings across different year groups.

Any child, from any year group can be dropped off/collected between these times:

Drop Off Time is between 8.40am – 9.10am	Collection Time is between 3.00am – 3.30pm
---	---

This means siblings can arrive together, there is a whole site one way system which is easier to follow and parents are able to arrive at any point during the times above meaning the need to queue should reduce.

Red Infants Entrance

Queue up Calton Road

All families will enter the school site at the old Infants entrance and follow the social distancing lines around the school. Children should be dropped off outside their classrooms and parents stay on the white lines where possible. Once you have dropped off your child(ren), continue along the white lines to exit the school site. We appreciate your patience.

We ask that families don't arrive on site before 8.40am. We hope that the longer window for drop off and collection will reduce the amount of time families will have to queue.

Families should queue along Calton Road towards Tuffley Avenue and we ask that you use the taped markers to socially distance when waiting.

This doesn't apply to Reception until they start at school full time from 21st September 2020.

All children will be released from their classroom doors to parents apart from Turquoise, Y3 and Y4.

Turquoise children will enter/exit from the corridor between Purple and Orange class. At collection time, parents of children in Turquoise are asked to leave the queue system and wait in the designated area whilst children are collected from class. The designated area is clearly marked on the map at the end of this document.

Y3 children will be released from Garnet Hall.

Y4 children will be enter/exit from the back of Gem Hall. At collection time, parents of children in Y4 are asked to leave the queue system and wait in the designated area (netball court) whilst children are collected from class. The designated area is clearly marked on the map at the end of this document.

All families will exit via the top playground gate and follow the path around to leave through the pedestrian carpark gate (include picture). The access route from Stroud Road is not in use – the top gate is being used by Ribston.

We do hope the changes will simplify and ease drop off and collection times and we really appreciate your patience and support.
