

# Classification Key

A classification key can be used to identify different things... plants, animals, objects... DRAGONS!

This example helps to identify 4 different mini-beasts.

Remember to:

- Find the difference between the objects
- Use simple questions
- Try questions with Yes / No answers

Draw your own dragons or find pictures on the internet.

Create a key to help people identify them.

Some questions for dragons:

- Does it breathe fire?
- Does it live in a cave?
- Is it black?
