	This project supports children with settling into the new rules and routines of school and encourages them to make new friends and feel confident in their class. It teaches children about being helpful, kind and thoughtful at home and at school. This project also teaches children how they are unique and special, the importance of friendship and how people in their family, school and local community are important and can help them.	This project supports children to develop a love of stories and reading. It encourages children to learn, retell and act out familiar and traditional tales including Cinderella, Goldilocks, Little Red Riding Hood, The Three Little Pigs and The Three Billy Goats Gruff.	This project explores the differences in the world at night compared to during the day. It teaches children about the importance of a good night's sleep, and helps them to discover what is happening in the world while they are sleeping, including finding out about nocturnal animals.	This exciting interest led project teaches children about the different creatures that roamed Earth millions of years ago and how they are related to animals that live on Earth today.	This project teaches children how to care for the plants and creatures that live and grow in their local environments.	This project teaches children about the global community they belong to and explores how plants, animals, communities and weather can differ around the world.

Driver Area of learning:
	This project teaches children about the natural changes that happen during the season of autumn, including how the weather changes, why trees lose their leaves and how wild animals prepare for winter.	This project teaches children about the celebrations that take place during the autumn and winter seasons, and focus on the significance and symbolism of light at this time of year.	This project teaches children about the changes that happen during winter, including the types of weather associated with winter. It also explores places that have snow all year round and the types of animals that live there.	This mini project teaches children about the weather that happens during spring and allows them to explore natural phenomena, including rainbows.	This mini seasonal project teaches children about natural phenomena, including how shadows change size during the day and how the lengths of the days change during the year.	This mini project teaches children about floating and sinking, freezing and melting and why it is important to keep hydrated on hot days.
