## SMOKEFREE WORKPLACE POLICY

### 1. Aims of the Policy

All managers of enclosed workplaces and public places have a responsibility for the maintenance and, where possible, improvement of the health of staff and users of their services and we acknowledge that breathing other people's smoke is both a public health hazard and a welfare issue, proven to cause ill health. This Policy recognises that second hand smoke adversely affects the health of all employees. It is also concerned with the exclusion of preventable carcinogenic substances in the locality of our premises.

We actively encourage employees to refrain smoking outside the times and circumstances set out in this policy, both in their own interests and as representatives of this organisation. However, this falls outside the scope of this Policy.

The Policy seeks to:

- Guarantee a healthy working environment and protect the current and future health of employees, pupils and members of the public.
- Guarantee the right of everyone to breathe in air free from tobacco smoke.
- Comply with Health and Safety Legislation and Employment Law.
- Raise awareness of the dangers associated with exposure to tobacco smoke.
- Take account of the needs of those who choose to smoke and to support those who wish to stop.

#### 1.1 Introduction

Section 2 (2) of the Health and Safety at Work Act 1974 places a duty on employers to: '...provide and maintain a safe working environment which is, so far as is reasonably practical, safe, without risks to health and adequate as regards facilities and arrangements for their welfare at work.'

From 1 July 2007 the Health Act 2006 came into effect. This legislation makes provision for the prohibition of smoking in certain premises, places and vehicles.

Section 2 (2) states that: '...premises should be smoke free if they are used as a place of work including vehicles.'

Further detail on the Health Act 2006 and the regulations associated with this Act is available on [www.smokefreeengland.co.uk](http://www.smokefreeengland.co.uk).

Second hand smoke – breathing other people’s tobacco smoke – and side stream smoke has now been shown to cause lung cancer and heart disease in non – smokers, as well as many other illnesses and minor conditions.

## 3. Introduction and Implementation of Policy

Staff, whether employed or voluntary, are personally responsible for complying with this Policy. Responsibility for implementing this Policy rests with the Head Teacher. Day-to-day responsibility for implementation lies with all staff members. To ensure that everyone understands that smoking is not allowed in the school buildings, clear signs will be displayed.

Job advertisements will include reference to the Smoke Free Policy and indicate that adherence to it will form part of the contract of employment.

### 3.1 Disciplinary Action

Any member of staff refusing to observe the Policy by smoking in unauthorised areas will be liable to Disciplinary Action in accordance with the Local Authority's Disciplinary Policy.

All staff have a role to play in enforcing the Policy and are required to deal with any observed or reported breaches. If managers or staff feel apprehensive about their own safety in regard to addressing any breach they should seek management support. It is important to note that primary emphasis should be placed on prevention of such situations arising.

In the event of a breach of the Policy by a visitor or staff member of other organisations, they should be asked to extinguish all smoking materials and be informed of the availability of external smoking areas. If they continue to smoke the matter should be referred to the Head Teacher.

In the event that staff or other organisations continue to breach the Policy, the appropriate organisation should be advised in writing of the consequences of breaching these requirements.

### 3.2 Monitoring and Review

The following will be monitored:

- That the Policy forms part of the induction programme.
- That discarded smoking materials are disposed of safely.

This Policy will be reviewed annually to ensure that it continues to meet the stated aims.
