

ENGLISH

For the first half term children will be focusing on non-fiction texts in order for them to create their own weather reports. This will be presented using green screening.

After Half Term, we will be looking at the Quest books where they will be able to create different types of fiction including narrative and poetry.

Storm Chasers

Mrs Burton
YEAR 3/4

COMPUTING

We will then continue to look at programming using Scratch.

The children will also be given opportunities in other subjects to use ICT to present their work.

MATHS

During the autumn term, we will be focusing on:

- Fractions
- Shapes (2D and 3D shape, their properties and calculating area and perimeter)
- Solving problems and making justifications

FRENCH

Sandrine – Applied conversational French

History/Geography

As our topic focus, the children will be exploring different types of extreme weather. This will include:

- Tornadoes and Hurricanes
- Tsunamis
- Storms
- Blizzards

They will also begin to consider why different areas of the world experience different types of weather.

ART/DT

The children will be looking at landscape paintings where they will be able to explore different media, consider how to use perspective and how to layer up their picture.

RE

Children will be looking at Hinduism and how this faith compares to Christianity.

SCIENCE

This term's topic will focus on states of matter which will include:

- Classifying solids, liquids and gases and matter that can behave as more than one classification
- Reversible and irreversible changes

MUSIC
