<p>You're an engineer, a scientist, a maker of men (iron men, of course). Explore the scientific world of forces and magnetism, metals and materials... Expand your mind as you test and trial, build and move.</p> <p>Which force is at play as you slide down a slide or swing on a swing? Can you explain why magnets repel and attract? Can you make a penny look shiny and new or build a steel band from pots and pans?</p> <p>If you were a metal, which one would you be? Gold, a shimmering, precious and costly mineral? Or steel, that strong and useful alloy? Maybe you're iron, malleable and easy to shape, but ready to rust!</p> <p>Maybe you're not a metal at all – but a force to be reckoned with!</p>	<p>Tremors. Overwhelming and mighty, Mother Nature's awesome energies hiss and roar deep within the Earth. Plates collide, spewing lava. Rocks rain down and mud slides in torrents. Towns and cities vanish under ashen clouds.</p> <p>Discover the dangerous and ferocious world of natural disasters, and glimpse their savage and deadly effects. Visit the ancient city of historic Pompeii, frozen in time, then create your own blistering explosions from model volcanoes that fire foamy lava.</p> <p>Discover the properties of rocks shaped by Earth's breathtaking power.</p>	<p>Take a moment to step outside and stand quietly and still. Turn off all technology and try to forget the modern world. Imagine this place 5000 years ago. What would you have seen?</p> <p>Head back to prehistoric times (it's a long time ago) to gather berries and hunt down dinner. Unearth ancient objects and visit astonishing mystical monuments that reveal the secrets of an ancient time.</p> <p>Learn how the people of Britain developed over thousands of years, from Stone Age to the Roman invasion.</p> <p>What tribal tales will you have to tell?</p>
