

2015 SATs Results

Very well done to our Year 6 pupils, who have now received the results from their SATs tests. Every child achieved at least a level 4 in every single test paper, which means they are all well placed for their move to secondary school next term.

This 100% performance was achieved by only 14 out of the 299 primary schools across Cornwall last year and shows just how well our children have done and how hard they have all worked, a super performance.

For each of the last 3 years our children have performed better than the National average of 77%, with this year really doing themselves proud.
