Contact tracing over the Easter holidays

During the Easter holidays, schools will again be playing an important role in contact tracing and the national effort to limit the spread of coronavirus (COVID-19). This is a key part of the test and trace process, as schools hold the data about close contacts and pupil contact details.

During the Easter holiday staff, students, parents and carers only need to inform the school of a positive case where they have developed symptoms within 48 hours of being in school.

The government does not expect school staff to be available for contact tracing duties beyond the first 6 days of the Easter holidays, at which point all positive cases should be dealt with through NHS Test and Trace. This means that we will not need to remain on-call after Wednesday 7th April. Up to and including 7th April I will check my emails daily between 9am and 9:30am. Please email (t.bosley@acornfed.derbyshire.sch.uk) me if your child develops symptoms and you are going for a test and then met me know the result of the test.

Where pupils or staff test positive for coronavirus (COVID-19) during the holidays, having developed symptoms more than 48 hours since being in an education setting, we are not required to take any action. If this is the case, please follow contact tracing instructions provided by NHS Test and Trace.

Contact with a positive case during the holiday

Where pupils or students need to self-isolate due to contact with a positive case during the holidays, we do not need to be informed about this until the first day of the Summer term.

Best wishes

Teresa Bosley
