

The Garden Classroom

Spring 3 2019

Totally Terrific Toys

Our topic this half term enabled us to learn all about toys. Some areas of learning we covered included writing stories about our own toys, using pop art to create a toy poster and learning about the history of toys. The children particularly enjoyed watching the film Toy Story as a stimulus for our learning activities!

Board Games Morning

We held a Board Games Morning and invited their parents along. Everybody bought a boards game of their choice and shared it with their family and friends in the Garden Classroom. Thanks to our parents for joining us and supporting our learning in school!

World Book Day

This year we celebrated World Book Day by dressing up as our favourite story characters. We also invited our dads, brothers, uncles and granddads into school to join in our World Book Day activities. During the day, we shared our favourite stories, learned lots about authors and illustrators and went on a story scavenger hunt!

Gymnastics

This half term we returned to the gym! The children enjoyed learning and developing skills involved in movement, agility and balance. We also enjoy using all the different equipment, including the bars, balance beams and rings!
