

**Marston Montgomery
Primary School**

**Garden Class Themes
Autumn Term 2018**

English

Some of the key texts we will cover this term are: Rainbow Fish, Giraffes Can't Dance, Honda's Surprise and The Snail and the Whale. The children will learn about the features of different genres of writing, such as letter writing, information texts and ...

Numeracy

The children will further develop their understanding of the number system using concrete objects and mental and written strategies. The children will learn to apply their mathematical understanding to a range of contexts, including shapes, measurement, fractions and problem solving. We will learn to use key mathematical vocabulary in class discussions.

Science

The children will learn about animals, including humans, and the things we need to survive and maintain a healthy lifestyle. They will also learn about habitats and their suitability for different living things.

History

The children will share past and present events in their own lives and in the lives of family members. We will also learn about the lives of significant individuals, in this case Christopher Columbus.

PSHE

Over the course of the year, we will follow the school's Safeguarding/PSHE curriculum. We will look at the following themes: Friendships and Relationships, Safety, Diversity and Health.

Art / DT

The children will use drawing, painting and sculpture to develop and share their ideas, experiences and imagination. They will look at the work of a range of artists, craft makers and designers.

Music

The children will use their voices expressively and creatively by singing songs and speaking chants and rhymes. They will play tuned and untuned instruments musically.

PE

The children will practise basic movements including running, jumping, throwing and catching.

French

The children will learn how to have a basic conversation in French.

RE

The children will learn about what it is to be special and about our special world.

Geography

The children will use geographical skills, such as simple fieldwork, observational and map reading skills, to learn about the physical features of our school and the wider world
