

The Meadow Class - Autumn 2 2018

During the first week, a range of work produced by the Juniors, was displayed in the local community church of St Giles. This included written work and art about the First World War centenary.

In R.E., the children have also worked collaboratively to study St Giles as a place of worship and researched the origins of the saint.

The children enjoyed a visit to Creswell Crags in North East Derbyshire. This was to support their learning about the Stone Age. They experienced what life was like in a cave; practised cave art techniques, and, learned survival skills by building their own shelters and fires.

The children wrote thank you letters to the staff of Creswell Crags and then moved on in time to research and compose a non-chronological report about the Iron-Age. They developed their handwriting skills by producing this lovely display work.

Pre- Christmas activities provided an opportunity to develop cooking skills through making pastry for mince pies.

The children also had a wonderful time experiencing the drama of pantomime at the Derby Arena. Santa also made a welcome visit to our Christmas party.

The term culminated in our annual Christingle service at St Giles Church, raising funds for The Children's Society.
