Information Security Policy

1. Introduction

The school's investment in the acquisition, storage and use of electronic and paper based information exists primarily to help provide the effective delivery of its services. This information is held about a variety of people and it is essential that the availability and confidentiality of accurate relevant information is maintained in a secure and legal environment.

The school is committed to achieving policy requirements through an Information Security process. To actively demonstrate this, the Council has issued a Commitment Statement which provides assurance to pupils, parents, governors and staff that sound and secure measures are in place to protect the confidentiality, integrity and availability of their information.

2. Objective

The information security objective is to ensure that the school's information base is protected against identified risks so that it may continue to deliver its services and obligations to the community. It also seeks to ensure that any security incidents have a minimal effect on its business and academic operations.

Examples of measures to achieve the above are physical security, virus control and the use of passwords for access control. The development of any new system will include information security analysis and requirements as part of the initial specification.

5. Responsibilities

The school's Head Teacher has direct responsibility for maintaining this policy and providing advice and guidance on its implementation. The Head Teacher will also have responsibility for ensuring that the school's Management Team receives an annual report on both the implementation and maintenance of the policy and its associated standards.
