

CORONAVIRUS (COVID-19) CATCH UP PREMIUM

How do we intend to spend the grant?

We are intending to use our Covid-19 catch up premium on small group and 1:1 targeted support for identified children. This will be implemented by teachers and teaching assistants.

How will the effect of this expenditure on the educational attainment of those pupils at the school be assessed?

Baseline assessments will allow us to identify gaps in learning and to devise individual catch-up programmes. Ongoing assessment will be undertaken to measure progress towards meeting the individual targets set and standardised assessments will also be used at key assessment points in the year to measure the effectiveness of the interventions.
