Whisper the Dog

We are happy to inform you that Whisper is coming in to school every Thursday to work with children in school.

Whilst we welcome siblings into school to watch assemblies and other performances we will also provide a crèche facility and would like to encourage parents and carers to use this. Younger children are very welcome to attend performances and assemblies however we appreciate that sometimes it is difficult to occupy them whilst watching the children. If you choose not to use the crèche facility and your younger child/ren are causing a disruption you will be kindly asked to leave the performance. Thank you.

We would like to update you on the changes to our Behaviour Policy which are now in place. As always we will continue to celebrate good and positive behaviour, however, if there is a need to sanction negative behaviour the following procedures are in place:

- * If a child receives a yellow card, this will be sent home and lunchtime play will be missed for the following day.
- * If a child receives 2 yellow cards in any half term then parents will be invited to attend a meeting with a member of school staff to discuss the behaviour and next steps.
- * If a child receives a further yellow card in any term, this will convert to a red card and an Internal exclusion will be given.

Scarlet Fever

Please see the message below from the Director of Public Health & Commissioning of Children's Services, Gloucestershire County Council

Re: Increase in scarlet fever

We are writing to inform you of a recent national increase in notifications of scarlet fever to Public Health England, above seasonal expected levels. We would like to take this opportunity to remind you of the signs, symptoms.

Signs and symptoms of scarlet fever

Scarlet fever is a common childhood infection caused by *Streptococcus pyogenes*, or group A streptococcus (GAS). The early symptoms of scarlet fever include sore throat, headache, fever, nausea and vomiting. After 12 to 48 hours the characteristic red, pinhead rash develops, typically first appearing on the chest and stomach, then rapidly spreading to other parts of the body, and giving the skin a sandpaper-like texture. The scarlet rash may be harder to spot on the skin of some Black and Asian people, although the 'sandpaper' feel should be present. Patients typically have flushed cheeks and pallor around the mouth. This may be accompanied by a 'strawberry tongue'. As the child improves peeling of the skin can occur.

Children can come to school 24 hours after commencing appropriate antibiotic treatment.
