## PE Newsletter - Spring 1 2017 – 2018

There are lots of exciting developments with PE at St Columb Major ACE Academy which I would like to share with you. After half term a new scheme of work will be in place. This will provide the whole school with exciting lessons aimed at improving skills and game knowledge.

Along with the new curriculum we are inviting in specialist sports coaches to assist with PE teaching. These coaches will work alongside our teachers and new curriculum to give the children the most exciting and engaging PE lessons.

There are three new PE clubs on offer after half term these are Year 5 & 6 Football on Wednesday, KS1 Multiskills on Wednesday and Year 5 & 6 Rugby on Thursday. You will receive a letter about booking your child onto one of these clubs. Places are limited and will be awarded on a first come first serve basis with a waiting list if necessary.

Sports Leaders is a new initiative being developed after half term. This will be a lunch time club, aimed at those children who want to develop their leadership skills. They will be taught and supported to provide active playtime to the other year groups as well as being given other responsibilities to develop their teamwork and leadership skills. If children are interested they will need to sign up with the other clubs and again, this will be on a first come first serve basis.

We are excited to have ordered 4 new football goals to replace the previous ones. This means we will have 2 pitches to allow for more children to participate. Additionally, we have a range of new lunch time sports equipment to provide active play times. We are always reviewing and updating our equipment so the children have access to good, safe resources.

Both the pupils and staff completed a questionnaire finding out about what they did and didn't like about PE in the school. We have collated this information and we are using it to improve PE in the school.

We work closely with the schools in the local areas and have a variety of fixtures we attend. Opportunities are there for our gifted and talented pupils, SEN pupils as well as those children who enjoy the less competitive aspects of sport. At primary school level it is so important the children have fun and enjoy themselves. Teaching them the value of teamwork and cooperation, how to win gracefully and how to deal with losing are all important things the children need to learn. It is wonderful when the children's parents come and support them in their sporting endeavours.
