

Wednesday 3<sup>rd</sup> March 2021

Mid week already, not long left of home learning now everyone!

Today let's start off our day with some exercise and get ourselves ready for the day. Choose a story on cosmic kid yoga and follow Jamie on her yoga adventures <https://cosmickids.com/>

Phonics now and we are looking at another digraph, 2 letters but 1 sound. Today our sound is **ow**, watch the video on the school website to see how to write and say the sound. Can you think of some ow words? How many can you think of in one minute? How many can you sound out and write in 1 minute? Our red word today is the word **no** look carefully as it does not have the same ow sound like we've been practicing today.

Today we are going to look at doubling in math's. To get a double of a number, we add the same number to itself like  $2 + 2 = 4$  or  $3 + 3 = 6$ . We are going to look at doubling by thinking of ladybirds! Can you draw yourself a ladybird and split the wings into 2, next add some spots on one side and then do the exact same amount on the other. A bit of a mixture of symmetry and doubling! See if you can challenge yourself by doing lots of spots to double.

For an outdoor activity today let's carry on thinking about bugs. Can you make a bug hotel? This could be one you can leave in your garden or you could make on your walk? What do you think would make bugs want to come and live in your hotel? What can you add to it to make it the best hotel around?

Have a lovely day,

Mrs Edlin
