

'Happiness is not about getting all you want. It's about enjoying all you have.'

Next week the children in:

Reception will be making friends with the 'Smeds and Smoos.' (A book by Julia Donaldson)

Year 1 will be enjoying their first Godly Play!

Year 2 will be historical researchers, finding out who Samuel Peyps was.

Year 3 will be investigating shadows and how we can create our own.

Year 4 will be walking with unicorns... then next week FLYING WITH DRAGONS!'

Year 5 will be getting philosophical with Pythagoras.

Year 6 will be enjoying a homemade afternoon tea!

Year 5 are currently learning all about Ancient Greece, creating an incredible display in their classroom. If you have a child in Year 5 ask them about the things they have learnt. ☺

Over the summer we had 4 new animals join our 'farm,' 4 gorgeous Muscovy ducks – thank you so much Mr Elford. ☺ They have settled in so well and love all the attention from the children. They are now best friends with the chickens.

Thank you to those of you who have already responded to our SurveyMonkey questionnaire about the start of the new school year. We will be asking you some more questions after half term so we can get feedback on how well we are doing and get suggestions on what we can do better. If you haven't yet completed the survey, please do take a few minutes over the weekend so we can hear your views. ☺

The children in reception class love dressing up and using the chalks in the playground. They are an amazing class. ☺

The children in Year 6 prepared some short video clips for the Diocese of Truro which are to be used at tomorrow's Diocesan Synod. The children were asked three questions:

- *What has been the greatest challenge of lockdown?*
- *What has been the greatest blessing of lockdown?*
- *What is the greatest opportunity before us now?*

Mr Hill recorded their responses and then created a short film. You will soon be able to watch the film on the website – it is very thought provoking and moving.

In our survey we asked parents if they knew what curriculum content would be covered by their child this year and if they knew where to find this information on the website. Thank you for your feedback. All of this information can be found under the '**Curriculum**' tab on the website. It specifies what children will be covering in individual year groups and also includes short videos illustrating specific subjects such as art and history across the whole school. Please do take time to have a look at these documents now you know where to find them.

What could be more exciting and scary than touching the teeth in a crocodile's mouth!!! Will his jaws snap shut?! Phew – we all finished the day with our fingers intact. 😊

Year 1 have been busy in maths thinking about 'one more' and 'one less' **and** playing in the woods, whilst Year 6 have been writing by candlelight. 😊

Please remember to regularly check the school website for newsletters and updates. We will send out text messages and emails but then always upload important letters, videos and information onto the website so you can access them easily. Thank you.
