FUNDING STATEMENT AND IMPACT STATEMENT**

Summary

For the Academic Year 2018-19 there was an extension of the PE co-ordinator role by employing a specialist PE Lead on a 0.5fte contract. The aims for the year were as follows:

1. Raise the profile of PE in the school.
2. Increase the amount of competitive opportunities given to the children.
3. Increase the provision of extra-curricular clubs for all children.
4. Establish greater links with external sporting clubs and encourage children and parents to be more active outside school.
5. To effectively train Teachers and Teaching Assistants to improve their confidence and their ability to deliver high quality PE.

Evaluation

1. Raise the profile of PE in the school

PE undoubtedly has a significantly higher profile across the whole school and externally as well through the introduction of the Couch to 5km Club, which has encouraged pupils and parents to exercise as a family. Also, significantly more children are being directed to external sporting clubs such as Tamar Trotters and Saltash RFC. Within school, the number of sporting clubs has increased markedly across both KS1 and KS2. The introduction of lunchtime clubs has given more children opportunities to be active and enjoy sport. The variety of sporting clubs has also increased greatly. The numbers of children competing for the school has soared in a huge variety of sports. Achievement in these competitions has been outstanding, with the school qualifying in five different events in Cornwall School Games Finals Events. Within the School Curriculum, teachers have been trained to incorporate Orienteering into Maths and English Lessons, with plans for further training in the next Academic year.

2. Increase the amount of competitive opportunities given to children

Looking at Section 5) of the document below you can see how many more opportunities the children have been given across a wide variety of sports. We competed extensively in the First Tier of CSG Games Qualifiers across all the qualifying sports, which lead to us competing in Tier

FUNDING STATEMENT AND IMPACT STATEMENT**

Two Competitions in YR3/4 Indoor Athletics, YR5/6 Indoor Athletics, Cross Country, Grass Track Cycling, Swimming and Touch Rugby. From these competitions we qualified to represent East Cornwall at the Cornwall School Games in all those events bar Swimming, where we just missed out on qualifying. The introduction of a new Girls' Football Club led to us competing in the ESFA County Finals for the first time, reaching the Quarter-Finals in the process. That led to the formation of a Saltash Girls' Football League being formed, and in conjunction with Saltash Youth FC, the establishment of an external U11 Girls' team which will compete in the Plymouth League next season. The Boys competed in the Large Schools' League and Cup and next year are also entered into the ESFA County Finals, Diamond Shield and Rosewarne Cup in addition to the league and cup. In other sports, as well as existing competitions entered, we also competed in the Marjon Primary Hockey Festival for the first time, entering three teams. In cross-country we performed extremely well in the East Cornwall League, both individually and as teams, and qualified six runners to represent ARENA in the CSG Finals. We also took over 30 runners to compete in the Landrake Cross-Country Race. In Athletics, as well as our successes in Indoor Athletics (YR3/4 – 2nd Place CSG Finals, YR5/6 – 5th Place CSG Finals), we also won the Area Sports Athletics event by a record 37 points!

3. Increase the provision of extra-curricular clubs for all children

Looking at Section 4) below you will see that the provision of extra-curricular clubs offered increased significantly, although the PE co-ordinator would like to increase this further by encouraging other teachers and members of staff to start extra-curricular sporting clubs. The new girls' football club has proved very popular, as has the lunchtime KS1 football club. The KS1 children who attended the club recently had the opportunity to attend a football festival and play a competitive match against St Stephens. Looking at the statistics in Section 4), it is clear how many more children are accessing at least one sporting club per week, including children with SEN and Pupil Premium children. The PE Co-ordinator aims to increase further the number of children attending sports clubs in the next academic year and the variety of sports being offered to the children.

4. Establish greater links with external sporting clubs and encourage children and parents to be more active outside school

Within the curriculum and through the opportunities extended through the provision of extra-curricular sporting clubs and competitive sporting opportunities provided, it is hoped to instil a love of sport and the benefits of physical activity into the children. A natural extension of this is to encourage the children to access more sporting clubs outside school and also to encourage families to enjoy the benefits of exercising together outside school. Within this academic year there has been a significant number of children joining the local sporting clubs – Tamar Trotters, Saltash RFC, Saltash United FC, Saltash Youth FC, Zero Gravity Gymnastics, Caradon Hockey Club and Marjon Hockey Centre of

Excellence. The establishment of the Couch to 5km Club has encouraged families to exercise more together. It is hoped to run another one of these next academic year and also establish a new club (The 5km Beyond Club) for those who accessed the Couch to 5km this year. It has also been encouraging to work alongside Saltash Youth, who generously provided sponsorship for the formation of the Saltash Schools Girls' Football League at Salt Mill. This has led, as explained above, to the formation of an U11 Girls' team at Saltash Youth, providing an opportunity to play competitive football outside school.

5.To effectively train teachers and teaching assistants to improve their confidence and ability to deliver high-quality PE lessons

Part of the legacy of the Sports Premium Funding is to provide sustainability in the quality of PE provision. Part of the role of the new PE Co-ordinator has been to up-skill teachers and teaching assistants so that they are consistently able to deliver high quality PE lessons. Demonstration lessons have been given to teachers in areas of the PE Curriculum where they needed the most support and advice and support given on an on-going basis. Teaching assistants have also been taught how to set up and use the gymnastics equipment, with ideas and support given to those providing additional small group activities for a variety of children, including those with SEN and Pupil Premium children.
