Children will become more resilient, secure and confident	<b>Thrive Intervention</b> Thrive is a specific way of working with all children that helps to develop their social and emotional well-being, enabling them to engage with life and learning. It supports them in becoming more self-assured, capable and adaptable providing a foundation for academic attainment.	Targeted children will build their resilience and feel more secure and confident. This will in turn provide a firm foundation for them to be ready to learn. For those children with Thrive action plans they will have accelerated progress and have increased social and emotional well-being. <b>Sutton trust: Social and emotional aspects of learning +4 mths individualised instruction +2 months</b>	Children will be screened and a clear baseline established. Children to make expected or better progress in Reading, and Writing across the school Children will become more motivated and engaged with their learning, with the desired impact of raising attainment and progress	<b>Digital Technologies</b> To support the independent learning and teaching and learning across the school there will be a set of ipads/ iPad minis in each class from Y1-6. Training is an integral part of this and ongoing CPD (termly) by an expert ADE (Apple Distinguished Educator) has been secured.	All classes will plan to use digital and mobile technologies to support teaching and learning across the curriculum, increasing motivation and engagement and maximising progress and attainment. Apps to support learning will be purchased for the whole school and/or groups of learners. Progress will be accelerated through the use of mobile technologies. Access to learning resources will be available at home and at school, extending learning beyond the school day. <b>Sutton trust: Digital technology +4 months, Feedback +8 months,</b>	The impact of the use of mobile technologies will be closely monitored and evaluated through pupil conferencing, staff surveys and through analysing progress data. All children will make expected or better progress from their starting points	Resources to support personalised learning	Resources to support personalised learning have been purchased and used across the school. In KS2 accelerated reader has been introduced and used across all classes and children have greater motivation and engagement with reading.	Most children made at least expected progress from their starting points. These personalised resources are now in place and will continue to be used. Targeting the resources to the individual needs of the children has the most impact. Accelerated reader will continue to be used and its use embedded across KS2.	£1661.78

<p>Children make expected or better progress in Reading, Writing and Maths</p>	<p>Additional TA hours to support interventions, extra-curricular activities &amp; independent learning (TA provision to facilitate)</p>	<p>Teaching Assistants report that the additional 15 minutes per day with the teacher is highly beneficial. It is a particularly valuable part of the day where specific children and targeted interventions can be discussed, planned for and resourced. For some children it is also a time where interventions can begin. Independent learning is evident across all classes in the school and the teaching assistants have a key role in facilitating this aspect of learning. Children are able to talk about what makes them a successful learner and also talk about their progress and the factors that have helped them to make progress.</p>	<p>The additional time with the teacher and TA has proved to be invaluable and will continue this year. TA's are now more confident in supporting independent learning and as such will be invited to take part in the CAST Successful Teaching and Learning course, on a rolling programme. One of the foci for this course is in developing higher order thinking skills and will be of particular benefit to the higher ability pupils.</p>	<p>£29,303.56</p>

To develop the social and emotional resilience for targeted children	Pyramid club	For children who took part in the programme the impact has been very positive. They all developed in confidence and had a growing ability to talk about their emotions. This has had the impact of developing their self-awareness and resilience skills.	For the targeted children class teachers noted a impact on their readiness to learn and their social and emotional resilience, both in and out of the classroom. As a result we will be investing in the training for two thrive practitioners, one a TA who will be non-class based and will be able to run the intervention with targeted children.	£0
To develop the social and emotional resilience of targeted children	Support Group for Service children	All children who have taken part in the Service Support Group have felt that it was beneficial. They particularly enjoyed the opportunity to talk in a small group and discuss their feelings. Positive comments from parents have reinforced this.	This intervention is no cost but has an impact. It will be run again on a regular basis by the DHT. New service children who have joined the school will be invited to join the group.	£0
To ensure that all children can participate in school visits, regardless of individual circumstances	School Visits	All children have been able to participate in all school visits, including the residentials. This has ensured a high degree of inclusion for all our children.	All children have participated in all school visits as a result of the funding. This has resulted in an increased level of inclusion for all pupils, regardless of their individual circumstances. Dependent on need, this will be continued this year.	£6.80
The targeted children are more emotionally resilient and ready to learn	Individual counselling/support, including play therapy, equine therapy and dreadnoughts.	For individual children who have accessed these services the evaluations have been positive and the intervention has been making a difference for those children. They are more secure and confident.	The Equine therapy and Dreadnoughts had a significant positive impact on the individual needs of the children, as can be seen in the detailed reports. If needed, we will fund these therapies again. We saw very limited impact from the play therapy in school and as such will not be funding this therapy in this academic year.	£1738

In KS2 children are accessing daily to quiz using accelerated reader which has had the impact of increasing the amount children are reading and also their comprehension of the books they are reading.	There has been a significant increase in the level of motivation and engagement of children when using the ipads. This year we will further extend the level of motivation and engagement by ensuring more access to technology. As needed, targeted apps for classes and individual needs will be purchased to maximise the impact.	£4733.06
