Shallal-igans

Join talented local musician and performer from our much-loved adaptation of "The Mousehole Cat", Richard Trethewey on a journey into Cornish musical mayhem.

Start your workshop by learning and singing along to ancient Cornish music before creating your own Cornish folkloric song or chant.

Next, create a make-shift instrument from all sorts of available noise making materials before heading out through the village to make yourselves heard for miles around!

No experience or knowledge of music is necessary to enjoy Shallal-igans (for children or grown-ups!) so come and be part of the musical mayhem this summer!

Point & Penpoll Quay Crabbing Competition 2018

The competition is for individual children under 13. Children of 7 and under may have the assistance of an adult when baiting their line but must be in control of their line when landing the crab.

An adult or a responsible family member must accompany all entrants under the age of 12.

Rules:

Entry fee: £1

The competition will consist of one 30 minute session starting at 4.15 pm

One hand line per competitor and no hooks or nets.

You have xx minutes to catch your three largest/heaviest crabs

The Judges' decision is final.

Look Out for the golden crab – there's a special prize

Anyone found cheating is in big trouble.

Make sure you register at the signing-in shelter on the quay and take your crabs back there to be counted/measured.

Please look after your crabs and return them very gently back to the water.

Prizes will be awarded at about 5.00 pm or earlier if we've finished counting and judging ...

Do's and Don'ts

Don't ... put too many crabs in one bucket. Stick to 10 per pail

Do ... add rocks and seaweed to the bucket to help replicate the crab's natural environment and reduce stress

Don't ... keep them all day long – return them gently to the sea

Do ... change the water every 10 minutes to avoid asphyxiation. Only use sea water.

Don't ... store your bucket in the sun

Don't ... use a line with a hook on.

Do ... hold your crab correctly - gently hold it either side of its shell or pick it up with one finger on top of the shell and one finger underneath - avoiding the claws though!

Do ... remove any crabs which are fighting - male crabs tend to be more aggressive than the ladies.

Happy crabbing!
