

Lynsey Lawrence

I became a Co-opted Governor in December 2020. I have two children at the school and a third who is at secondary school having completed the full Littletown journey from Nursery to Year 6.

I am a qualified project manager with 15 years experience delivering a variety of projects in both the public and private sectors.

I currently work at the Met Office where I support the infrastructure which captures observations from the many types of weather instruments which feed the weather forecasts. It's a varied and dynamic role and I enjoy learning from the different challenges which come along with each new project.

As a governor I am looking forward to giving back what I can in support of 'Littletown Big Team' and helping the school to continue to improve.
