

Governor Biography- Tina Sillitoe

I have been a governor here at Littletown since 2001, starting out as a parent governor when my eldest daughter was in year 1. My youngest daughter left the school in 2011 and I am still here! I am passionate about my work here at Littletown and am always eager to see Littletown leading the way to give the children in our community the best educational experience that we can.

As a governor I have taken part in lots of training to enable me to fulfil the role, this has included human resources, safeguarding, understanding data, financial and pupil exclusions. I have been involved in the recruitment of 3 head teachers and met with Ofsted inspectors a number of times but most of all I have built some amazing relationships with children, staff and fellow governors.

I am regularly in school, meeting with staff, working with children and often meeting contractors and suppliers. I love coming to watch the childrens' performances, their express events and to present the A.C.E awards.

As governors we continue to face difficulties securing funding to repair the fabric of the building, but this is one of aspects of governance I enjoy- a challenge!

I have worked as a teaching assistant in a local rural primary school for the last 12 years. I am also a Brownie leader in Honiton and have been on the committee for Honiton Carnival, so many of the children see me pop up in all sorts of places.
