## Lexia

Dear Parents,

We would like to update you on our Lexia programme and how we will be implementing this over the year.

Lexia is an online Literacy programme, focusing on reading, phonics and spellings. It is tailored to your individual child and supports and challenges them at their level. Children have been using the programme in school in previous years and we are seeing great results.

Every child is completing a new reading placement assessment in school so that we can accurately see where they should be starting, the programme is then personalised to their level. This may mean that for those children in Y1-Y6 that they may now be on a different level to the one they were on before. Please do not worry about this. It only means that they may need to consolidate some of the skills already practised.

Children will be given a Lexia log in and this will be stapled in their reading diaries so that they are able to practice this as part of their home learning (Y1-Y6). **We need every child to complete the assessment in school before they start using at home so the class teacher will add the log ins to the diaries when the placement test has been completed.**

This letter will accompany information on how to log into the program from your home device, how the program works and the research to support it.

If you have any questions at all, please do not hesitate to email the school office:
