LEARNING TOGETHER AT HOME: WEEK 15

It's week 15 and this week we have lots of fun activities to do with water!

Fill a bucket with soapy water and find some toys to clean. You might use a sponge, a cloth or even an old toothbrush to get into those tricky cracks.

Make a bubble mixture using washing up liquid and water. You can do this in a bucket, cup or small jar. See what you can find to use as a bubble stick. You might use a coat hanger or a cookie cutter.

Make some ice paint by freezing water coloured with food colouring. When they've frozen take them outside and make some beautiful pictures.

Use empty plastic bottles to make a water squirter. You could aim at targets, create a picture or even water the plants.

Click [here](#) to see to Catrin playing her water xylophone!

It's important that we don't waste water, so when you have finished your activities you could reuse it to water the plants.
