1st July 2018

Dear Parents/Carers,

From recent parent feedback regarding how Brookfield can provide information to you as parents, allowing you to further support your children at home, linked to the current learning that is taking place in class, we have decided to introduce something called **Knowledge Organisers** to address this.

Knowledge Organisers are essentially a double A4 sheet that outlines all the knowledge and information that your child will be learning about in Science and Topic (history/geography) each half term. This could include *famous people, key facts, key vocabulary and key dates and timelines*.

The aim of these is to regularly, over the course of the term, use these **Knowledge Organisers** to *rote learn and memorise key knowledge*, which will give your child a better understanding of their current learning, or prepare them for what is to come (through pre-teaching using these Knowledge Organisers). These will be readily available in the classrooms for the children to refer to, will be used by our support staff to pre-teach or recap key learning if your child needs a bit of a boost to catch up/keep up, and will become an essential part of Science and Topic teaching, where children will use these to create their own quizzes.

In order for you to be able to support your child at home, these Knowledge Organisers will be available on our school website for you to access, so that you can familiarise yourself with these and use these how you wish to support their learning, in line with what's being taught in school. Please refer to our school website (<http://www.brookfield.sutton.sch.uk/website>) to find these valuable **Knowledge Organisers**, along with other useful resources, such as weekly spellings etc., which will be updated each half term.

Thank you for helping us to make sure your children achieve as well as they can; together we can create a platform to help them learn new knowledge and skills, to achieve well!

Many thanks,

Mrs Meyrick
Deputy Headteacher
